

# Need a Quick Quilt? Just Add Borders!

*Try these quick-and-easy project ideas for your next lap quilt, baby quilt, or wall accent! These make fast, fun, and practical gifts through out the year, and for holiday gift giving. Begin with a pre-printed panel or the lead pattern of your favorite Marcus collection... here are a few suggestions to get you started:*

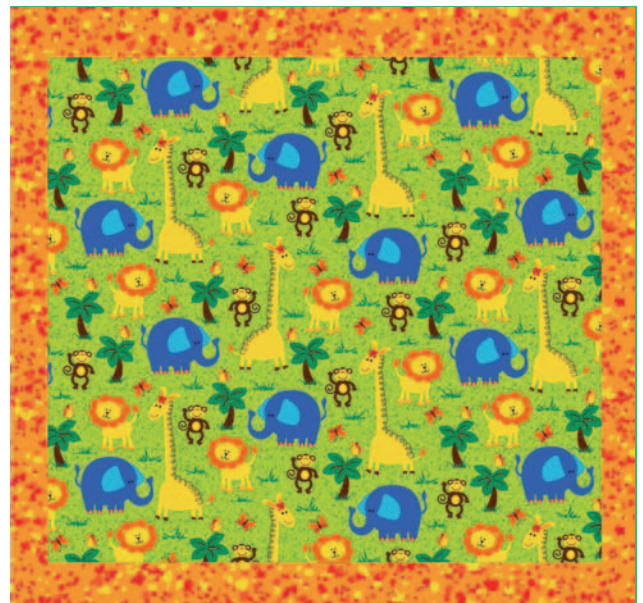

1. Cut 1½ yards of the 60" wide Pickle Dish print from **GRACE IN A PICKLE**. Border it with 2" strips of a coordinating **CENTENNIAL SOLID**, then choose your favorite print from the line as the second border, cutting strips approximately 5" wide. For the backing, we suggest cozy **SO SOFTLY FLANNEL**.
2. Stitch a gift for a special US service person using the new **LOVE & GLORY** panel (23" wide), bordered in coordinating **Strip-It™** along the sides and finish with varied border widths of the red texture for emphasis! The vertical orientation makes it perfect for a door accent or hallway décor.
3. Make a fun playmat with a 36" square of an allover flannel print, like the lead design from **JAMBOREE FLANNEL**, available in brights or soft colors. Choose your favorite border(s) to sew around the square, then add a backing print!
